Article : Melting Ice at the North Pole

1

2

3

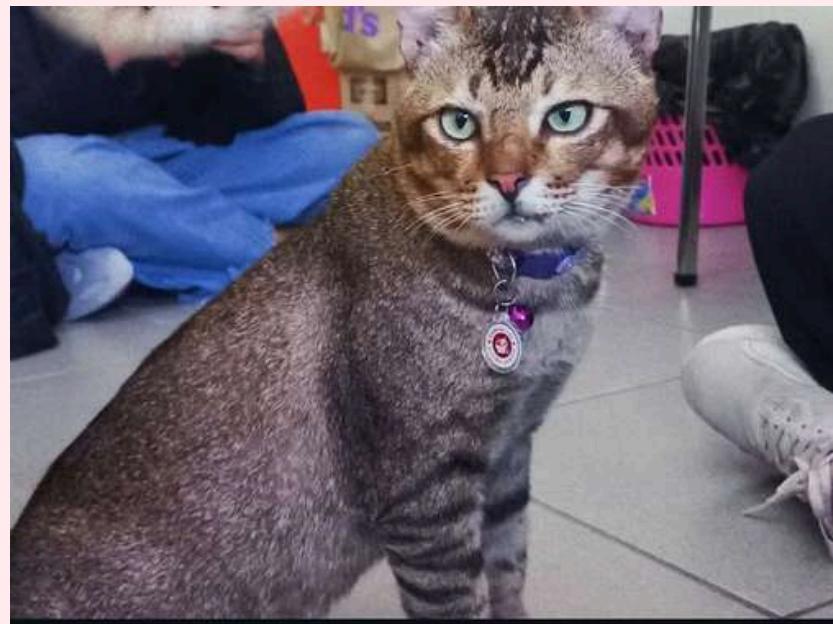

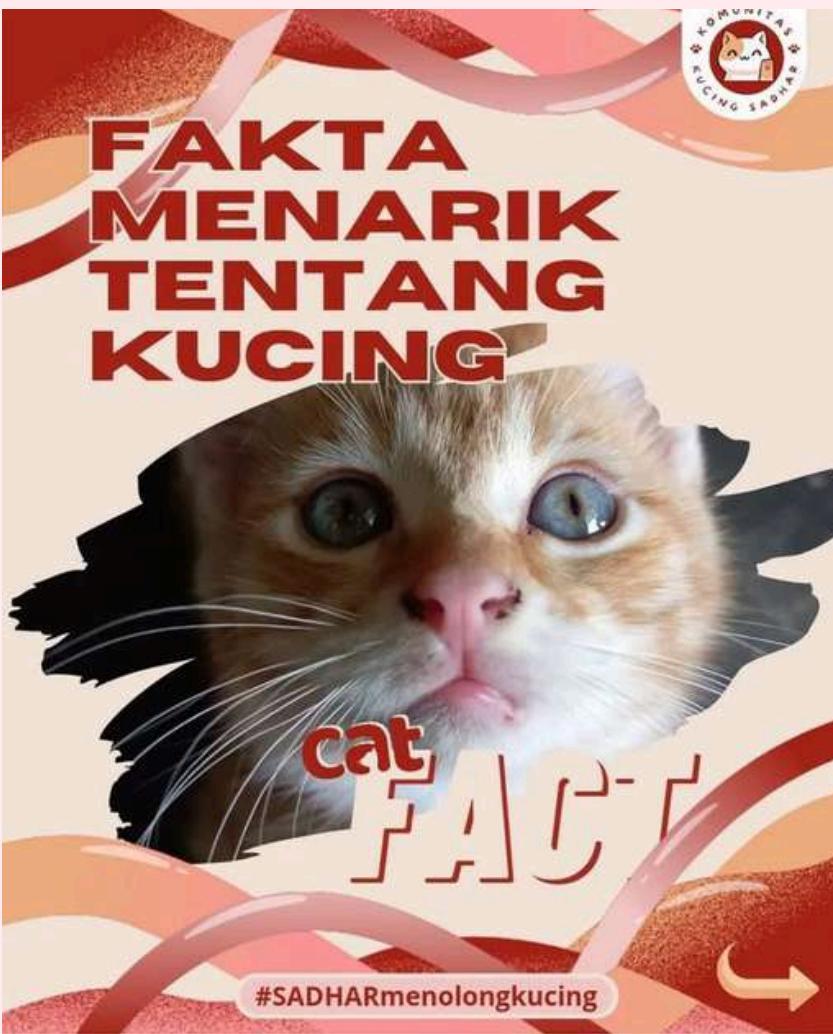

This article is made in accordance with the true events experienced that occurred at that time, which was in 2021. This article explains about the phenomenon of melting ice in the north pole due to global warming. This article is based on several recent sources that are packaged more briefly and interesting to read so that readers can be aware of this event.

Melting Ice at The North Pole

BY JESSICA NINDA

Solar radiation heats the ice surface makes the sea melting during the summertime. The source found to melt the ice can come from solar energy. Furthermore, it can be from water under the ice that has a temperature above the freezing point causes the bottom surface to melt the ice. Moreover, reflection from solar energy could the ice enough to start melting.

Tips After Botox

Agar wajah tetap kencang dalam jangka waktu yang lama

- Hindari aktivitas fisik yang berat atau olahraga intens selama beberapa hari setelah tindakan.
- Hindari paparan panas berlebih, seperti dari sauna, mandi uap, atau sinar matahari langsung.
- Hindari mengonsumsi alkohol secara berlebihan.
- Hindari mengonsumsi vitamin E sementara waktu. Vitamin E memiliki efek pengencer darah yang dapat meningkatkan risiko memar dan pendarahan.
- Jauhi sumber panas eksternal, seperti sauna atau mandi air panas, karena panas dapat memicu perluasan pembuluh darah dan berpotensi mengurangi efek botox.

Filler Regenovue

- Regenovue Sub-Q Plus: Hidung dan Dagu
- Regenovue Fine Plus: Smile Line dan Under Eye
- Regenovue Deep Plus: Bibir

Regenovue adalah pengisi kulit asam hialuronat non-hewani dari Korea Selatan. Struktur monofasik dengan ukuran partikel homogen memberikan stabilitas untuk kontur wajah yang presisi. Dengan tingkat endotoksin kurang dari 0,1EU/g dan sangat terkait silang dengan BDDE, Regenovue adalah filler terpercaya untuk menambah fitur wajah, menggantikan volume, dan meminimalkan garis-garis halus dan kerutan.

Produk:

whitedouceur Follow

Filler Celosome

- Celosome Implant: Hidung Dan Dagu
- Celosome Soft: Bibir

Celosome merupakan serangkaian pengisi berbasis asam hialuronat yang distabilkan yang diproduksi menggunakan teknologi ikatan silang HENM khusus, yang menjamin viskoelastisitas dan keamanan terbaik. Pemurnian membran HA multi-tahap dalam pengisi Celosome™ memungkinkan penghilangan agen ikatan silang BDDE secara menyeluruh, sementara deionisasi dan penggunaan sistem air ultra-murni meminimalkan kandungan endotoksin dan kotoran lainnya dalam produk

The screenshot shows a video editing interface with the following components:

- Video Preview:** On the left, a frame from a film showing a person in a yellow vest standing on a railway platform.
- Timeline:** At the top right, a timeline with frames numbered 0:00:27 through 0:00:38. A purple vertical bar highlights frame 32, which corresponds to the subtitle entry.
- Control Bar:** Below the timeline are various editing tools and buttons.
- Text Editor:** A window at the bottom contains the subtitle text and its properties.
 - Text Content:** The subtitle is "he stayed on the railway platform...".
 - Properties:** The text is styled as "Default".
 - Timing:** The start time is 0:00:31.54, end time is 0:00:32.99, and duration is 0:00:01.45.
 - Buttons:** Includes options for Comment, Actor, Effect, and Time/Frame selection.
- Subtitles List:** A table below the editor lists all subtitles with their details:

	End	CPS	Style	Text
1.86	0:00:30.72	13	Default	Instead of getting on the train...
1.54	0:00:32.99	19	Default	he stayed on the railway platform...
1.99	0:00:34.66	9	Default	...saw the train pass.\n
1.79	0:00:41.56	10	Default	Even though... he already had a ticket.
1.38	0:00:45.17	6	Default	Just leave him be, Narti.
1.89	0:00:48.48	13	Default	Perhaps he is still not willing to get back.
1.48	0:00:49.80	11	Default	Excuse myself, Sir...
1.88	0:00:52.22	9	Default	may I know your destination?
1.92	0:00:54.99	11	Default	I had a wrong train schedule.
1.18	0:00:57.70	5	Default	It was not seldom,
1.72	0:00:58.99	13	Default	but it was very often.

Volunteering English Teacher - Realino SPM

**English Classes
every weekend.
Loc. Jombor, Yogyakarta**

I joined the volunteer community at Jesuit Realinospm to teach English language and culture with some people who volunteered to help the local community by providing basic education in English. Starting from teaching letter recognition, numbers, words and more.

In addition, to help them learn more, we organise various practical sessions such as dancing, singing, drama, cooking, playing and art.

PREVIOUS WORK

FINANCIAL MANAGEMENT FOR PT STARVIS GLOBAL UTAMA

As part of the finance team, I was responsible for managing financial reports, reconciling transactions, invoicing customers, and ensuring the company's cash flow remained stable. Through accurate financial analyses and effective budget management strategies, we managed to improve the company's operational efficiency. At the end of each month, I prepare a comprehensive income statement and conduct a detailed financial evaluation to assess performance and optimise future strategies.

About Us

Social Media Administration

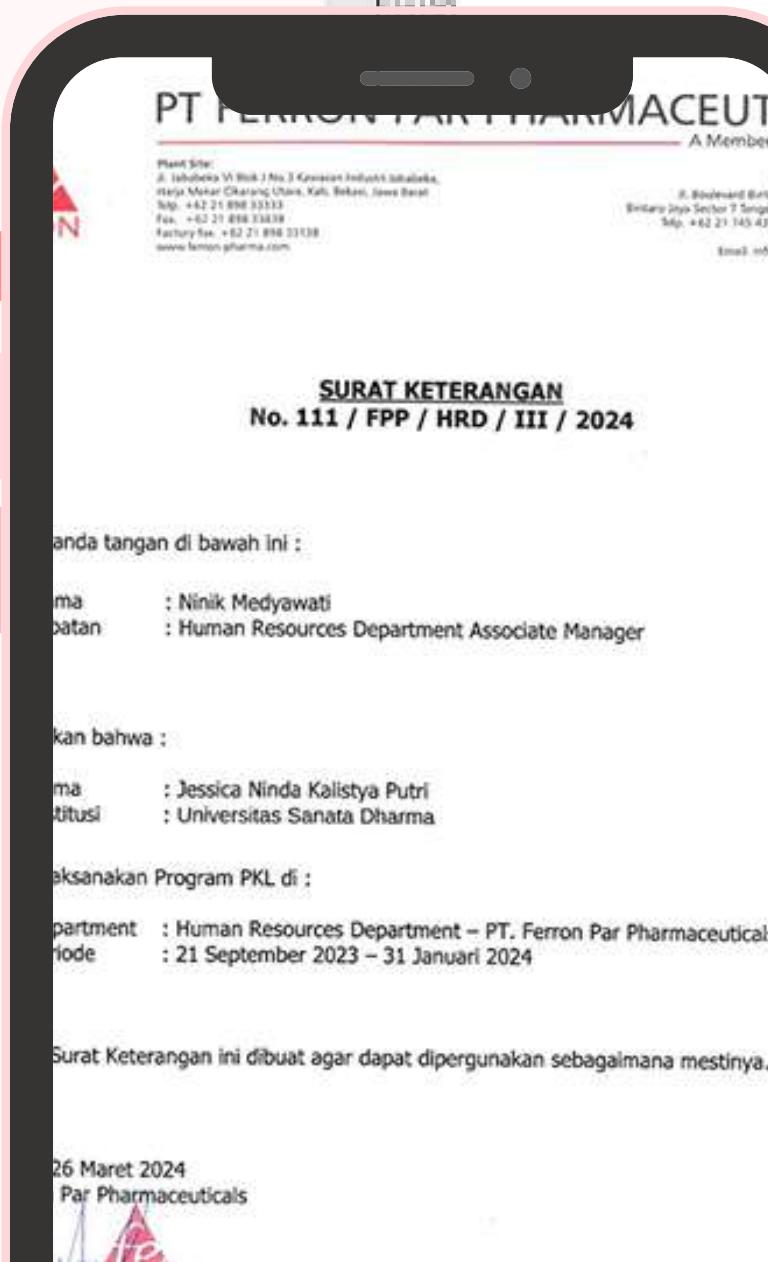

Beauty & Health

I worked managing social media accounts such as Instagram, WhatsApp, Tiktok, and some e-commerce such as Shopee and Tokopedia to serve customers, besides that I also created some content about products and some instructions or information about products through feeds, reels, stories, etc.

Vendor/Supplier Audit Guidelines
How materials, packaging materials, and
Other Supporting Items

I. Tujuan
Memberikan pedoman dalam melakukan inspeksi (audit) dan penilaian (supplier) yang berwenang, pelaksanaan audit dan pembentukan kesimpulan hasil audit yang dilakukan.

Purpose
(Provide guidance in setting manufacturer (vendor) and supplier (supplier) which have been audited, the implementation of the audit and the conclusion of the audit conducted)

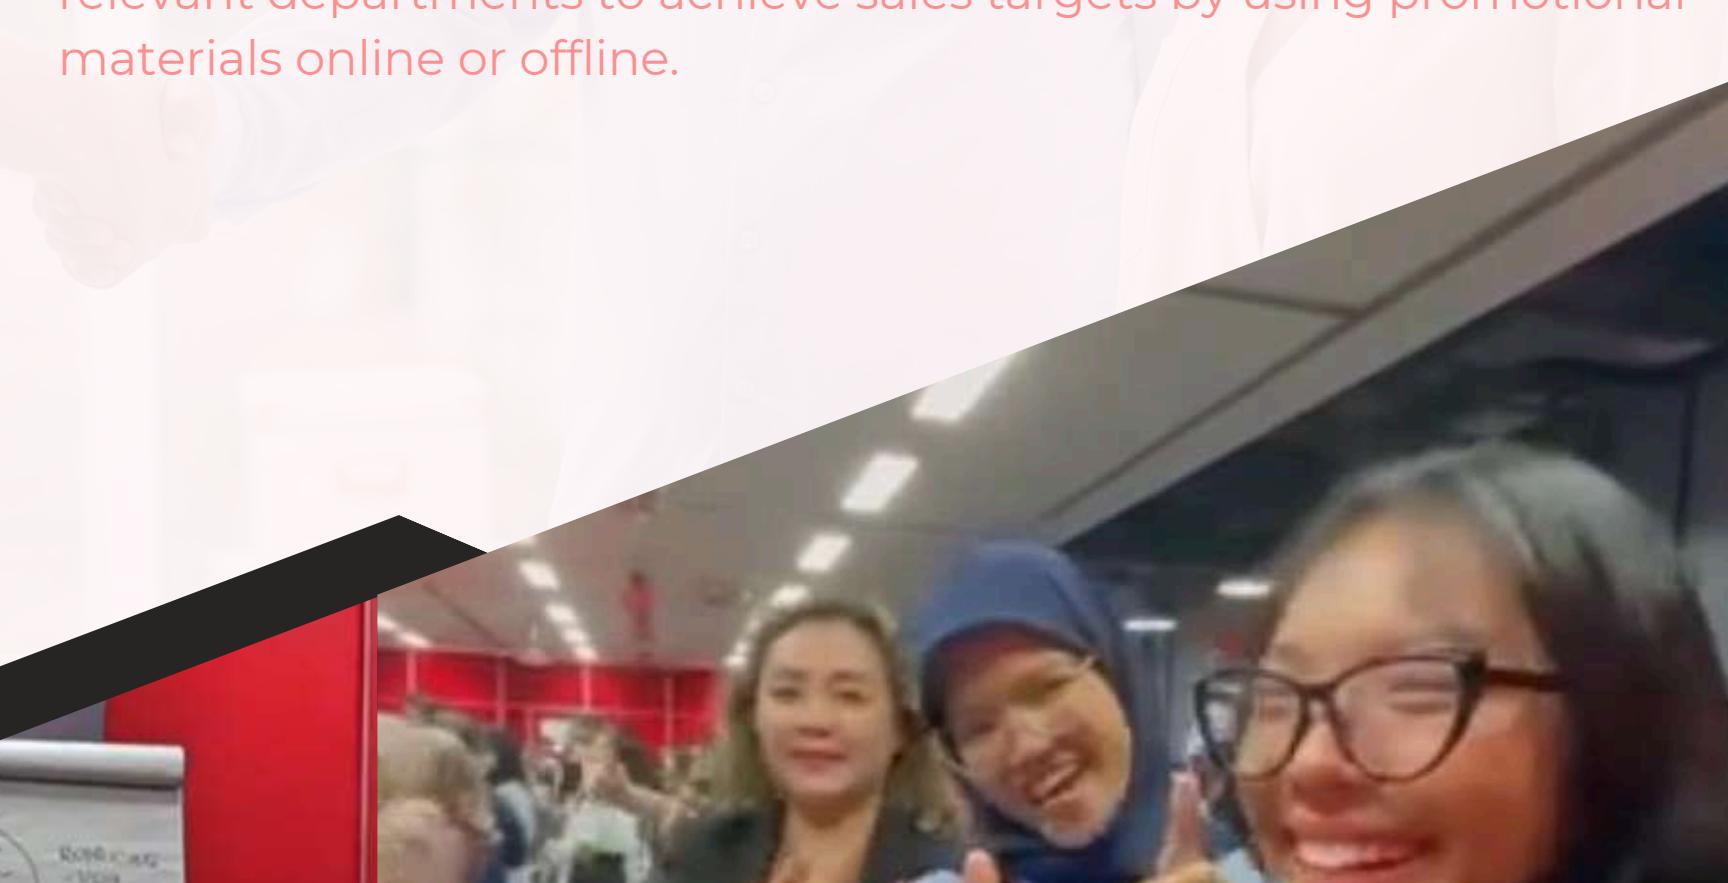

II. Skop Lingkup
Seluruh vendor dan supplier yang terdaftar dalam Approved Vendor list
Approved Supplier list di PT Ferron Par Pharmaceuticals yang mencantumkan:

- Bahan Baku aktif (Active Pharmaceutical Ingredient (API))
- Bahan penunjang (Excipient)

Business Development

I worked in teams to identify potential new businesses or partnerships to manage relationships and implement projects end-to-end, including business models, budgets, product development, and claims procedures. Every week there is a time for sharing to develop strategic plans with relevant departments to achieve sales targets by using promotional materials online or offline.
